

VANESSA NGENO

College Point, NY 11356 | 516-514-9271 | vanessangeno@gmail.com | [LinkedIn](#) | [Portfolio](#)

EDUCATION

Yeshiva University, Katz School of Science and Health

Master of Science in Data Analytics and Visualization, GPA: 3.4

New York, NY

December 2025

Jomo Kenyatta University of Agriculture and Technology

Bachelor of Science in Actuarial Science, GPA: 3.0

Nairobi, Kenya

November 2015

END-TO-END AI & DATA PROJECTS

AI-Powered Learning Assistant - [Link](#)

Fall 2025

- Engineered a production AI platform end-to-end using Python, FastAPI, LangChain, RAG architecture, ChromaDB, and the Claude API. Built analytics views tracking user engagement and system performance. Shipped a working tool that teaches and enables others to understand how LLMs can be deployed in real applications.

Abraham Accords Literacy Dashboard – Mapping Literacy for Humanity - [Link](#)

Fall 2025

- Scoped, built, and delivered an interactive Streamlit dashboard integrating multi-source international datasets from UNESCO, World Bank, and national governments. Embedded validation frameworks, forecasting modules, and policy-ready visualizations. Designed to enable policymakers and NGO partners to make data-driven decisions on education.

DOC Literacy Dashboard Ecosystem — World Literacy Research Center - [Link](#)

Spring 2026

- Designed a 15-table relational schema from scratch, generated a 4,563-row synthetic dataset in Python, and built a 5-layer Tableau Public dashboard tracking inmate literacy progression, GED readiness, and post-release outcomes. Created composite performance metrics with formal governance documentation so government and nonprofit stakeholders can own and operate the system after handoff.

PROFESSIONAL EXPERIENCE

Data Analytics Intern

September 2025 – Present

Peblink, Remote

- Collect and validate literacy datasets from UNESCO, the World Bank, and national ministries of education across five countries, applying AI tools to detect inconsistencies and missing data before analysis
- Identify correlations and emerging patterns in regional literacy outcomes and develop a literacy need ranking methodology across Accords nations, incorporating AI-supported forecasts of dropout rates and literacy decline
- Construct the Abraham Accords Literacy Need Index, combining reading levels, gender parity, and school retention into a single benchmark score visualized through a GIS-based heat map
- Train and enable cross-functional stakeholders to understand and act on literacy data insights

Data Analytics Partner

September 2023 – February 2024

Safaricom PLC, Nairobi, Kenya

- Produced recurring and ad hoc reports for the Customer Operations department, categorizing call center volume by voice, data, and SMS issue types using SQL and Qlik Sense
- Analyzed agent-level metrics — occupancy, calls handled, customer satisfaction, and resolution rates — via SUMIFS and pivot-table summaries in Excel, surfacing weekly trends that informed staffing and coaching decisions

SKILLS

Programming Languages: Python, R, SQL, JavaScript

AI/ML: Machine Learning, NLP, RAG Architecture, LangChain, ChromaDB, Claude API, OpenAI API

Cloud & Tools: Railway, AWS, Docker, MongoDB

Data Visualization & BI: Tableau, Power BI, Qlik Sense, Streamlit

Other: Data Visualization, API Development, Relational Schema Design, EdTech Systems, Cross-functional communication

SOCIAL IMPACT & TEACHING

- **Co-founder, Math Tutoring and Literacy Initiative (Kenya)** - Designed and delivered student-centered math programs; organized literacy outreach including donation of educational and Christian-based books to underserved children
- **Volunteer, National Tree Planting Day** - Contributed to environmental sustainability efforts aligned with corporate net-zero goals
- **Teaching & Enabling** - Regularly translate technical AI/data work into clear explanations for non-technical audiences (policymakers, nonprofit partners, cross-functional teams) to ensure they can understand and own the solutions built
