WORK EXPERIENCE

Data Analytics Partner

September 2023 – February 2024

Safaricom PLC

Nairobi, Kenya

- Developed and implemented data-driven retention strategies, resulting in a 25% increase in customer retention rate and a 12% reduction in churn rate, translating to \$5 million in cost savings.
- Presented data-driven stories to senior management, influencing strategic decisions and driving business growth, resulting in 20% increase in sales from targeted customer segments, 15% reduction in operational costs through process optimization and 12% increase in active subscribers.

Regional Business Intelligence Lead (Job Rotation)

January 2023 – August 2023

Safaricom PLC

Nairobi, Kenya

- Leveraged advanced data analytics & management tools (SQL, Qlik Sense, MS Excel) to uncover trends and patterns in customer behavior. This helped to identify key drivers of customer acquisition and retention, enabling the company to maintain a stable market share of 65% in the Mt. Kenya region.
- Collaborated with cross-functional teams to integrate data insights into operational plans, enhancing customer experience and driving revenue growth, including 30% increase in mobile money transactions, 12% increase in active subscribers and 10% reduction in customer complaints.

Customer Experience Executive

October 2016 – December 2022

Safaricom PLC

Nairobi, Kenya

- Reduced customer complaints by 30% through effective issue resolution and process improvements, resulting in a 20% decrease in escalations to senior management.
- Streamlined customer service processes, reducing average handling time by 40% and increasing first-call resolution rate by 25%, resulting in a 15% reduction in operational costs.

ACADEMIC PROJECTS

Business Modeling, Design & Data Analytics, Yeshiva University

Spring 2024

- Designed and created a data product to help online clothing companies decrease online returns.
- Created statistical models using R to predict different business-based outputs.
- Built dashboards to visualize crime data analysis using Tableau.

SPECIAL INTERESTS

- Researching and developing data-driven solutions to optimize food distribution, reduce waste, and improve access to nutritious food in vulnerable communities.
- Committed to empowering young girls in underserved communities to pursue tech careers through educational initiatives, workshops, and mentorship programs.
- Utilizing data and AI to develop tools for community education on safe technology use to address social media influence and teenage mental health, substance abuse prevention and promoting healthy online interactions and digital citizenship.
